Medicare Part D Drug Plans

- A. To purchase a Stand-Alone Prescription Drug Plan, you cannot be enrolled in a Medicare Advantage Plan.**
- B. If you have a Medicare Supplement Plan, you do need to purchase a stand-alone prescription drug plan, even if you do not take any prescriptions, unless you have qualified drug coverage like (VA, Union, or Group Coverage). If you do not have credible Part D Drug Coverage, you will be penalized 1% per month of every month you went without coverage added to the premium when you do get coverage. This is a lifetime penalty.**
- C. There are several companies that offer drug plans, and you can change drug plan companies every year and there are no pre-existing clauses.**
- D. If you email us all the prescriptions that you take, we can look them up and let you know which company fits you best.**
- E. We will need the following information:**
 - 1. Exact full name and letters of the drug**
 - 2. Strength**
 - 3. Dosage - example - 1 or 2 per day**

"We do not offer every plan available in your area. Any information we provide is limited to those plans we do offer in your area. Please contact Medicare.gov or 1-800-MEDICARE to get information on all of your options."
